GOSSIP ABOUT THE BALL PLAYERS.

Local Billiard Matches for Big Stakes on the Quiet.

GENERAL SPORTING NEWS OF THE DAY

IBY CABLE TO THE DISPATCH.]

LONDON, March 12 .- [Copyright.]-The first English game of the touring baseball players was played to-day at Kennington Oval, under circumstances which were both favorable and unfavorable. Yesterday the weather was delightfully clear and crisp, a surprise for London in March. Early this morning it began to rain, and at noon today a heavy fog overhung the city. In spite of that fact, not less than 8,000 people were present, part of them in the handsome grand stand back of the home plate; the rest

disposed about the Oval after the usual man-ner of cricket games.

Williamson, being still a sufferer from the in-jury he received at Paris, was not present. His place in the field was filled by Ryan. The All Americas went first to bat, with Hanlon at the top of the list. He fell an easy victim to Baldwin's curves. Ward, who followed him, had no better luck, and Brown, in turn, was equally unsuccessful, so that the crack team was retired in the first inning without a run. Chicago had better luck with Healy, and scored two runs in their half of the first inning.

All-America had their revenge in the second inning by batting Baldwin freely over the field inning by batting Baldwin freely over the field and patting four runs to the good against their opponents. Nothing was scored in the third, fourth and fifth innings, all of which were distinguished by a magnificent exhibition of in and out fielding by both sides. In the sixth inning Chicago, by a fortunate bunching of hits, scored twice, and in the eighth they were even more fortunate, gaining three runs on opportune batting and dashing base running.

THE PRINCE ON DECK. In the midst of the fifth inning a sensation was observed on the grand stand, which took the form of a general uprising of spectators and a general uplifting of hats. His Royal Highness, the Prince of Wales, arrived at the main gate, and was escorted to the principal box above the grand stand. He had come to the game in an open barouche drawn by a handsome pair of bays. By his side sat Colonel handsome pair of bays. By his side sat Colonel Knolly, his private secretary. Mr. Spalding, Dr. Grace and Mr. Bonner met His Royal Highness at the gate and escorted him to his place. His Royal Highness looked exceedingly well and showed no trace of the ugly wound which Baldwin had administered to him at Nice with a bonquet of cabbages.

Among those who sat in the box with the Prince was Prince Christian, of Schleswigh-Holstein. He entered at once into the spirit of the game, and, with the assistance of Mr. Spalding and Dr. Grace, who has become quite enthusiastic for the American game, was able to follow the maneutres to the close.

At the close of the fifth inning, within a few minutes after His Royal Highness' arrival, the boys came together in the center of the field and gave three cheers and a tiger for the heir apparent to the English throne. The Prince acknowledged the salute by lifting his hat, bowing and smilling pleasantly.

THE PEINCE HIGHLY HONGRED.

THE PRINCE HIGHLY HONORED. Immediately afterward the boys were es-

corted by a private way to the box of "his royal highness, and in a room secluded from the general gaze, were successively introduced to the Prince of Wales. He never exhibited himself in a more favorable light than on this occasion He had a pleasant smile and appreciative word for each of the players. As they came up he shook each by the hand, expressing his admiration of each man's play. He displayed extragame, and expressed the hope that he might eet the boys soon again. His Royal Highness wore a blue beaver over-

coat, which on any other person would have been considered passe. He wore light trousers, patent leather boots, brown gloves and a sweet smile. All the boys voted him a thoroughly

Dominick McCaffrey Finally Buys Harry Alden's New York Saloon.

NEW YORK, March 12 - Dominick McCaffrey bought the Criterion saloon, at No. 2 Union Square, yesterday, from Harry Alden. He said last evening that he had retired permanently from the ring. McCaffrey gave his record. He has been for

eight years a prize fighter, and has fought with John L. Sullivan, Charley Mitchell and other big fellows. He has knocked out Charley McCoy, of Pittsburg; Gus Lambert, Jack Stewart, Hughes, the Dangerous Blacksmith; Donald Bennie, the Scotch athlete, and John P. Clow, He defeated Mitchell in the Madison Square Garden in 1881 and says he is the only see the arden in 1884, and says he is the only man w carden in 1884, and says he is the only man who fought Sullivan seven rounds and got a draw under the Mai quis of Queensbury rules.

McCaffrey challenged Jack Dempsey to a finish fight for \$5,000 and put up a forfeit of \$500 with a Philadelphia newspaper, but it was not covered and the forfeit was withdrawn. He made but little money during his puglistic carreer.

Galvin Meets the Gang.

A Western Stable. SAN FRANCISCO, CAL., March 12.-The Western contingent of Senator Hearst's stable of thoroughbreds will leave for Louisville the of thoroughbreds will leave for Louisville the
first of next month. The string will be under
the supervision of Mr. George 8. Van Gordon
and will be trained by William Murray. Patsy
Dufani, the old California favorite jockey, will
accompany the string as head jockey.

There will be 12 horses in the Western stable,
among the fot being Almont and Not Idle, two
Australians and nine 2-year-olds. Almont will
represent the Hearst stable in the Kentucky
Derby.

Can De Without Colleges. President Smith, of the Wheeling-ball cinb, as in the city yesterday, and he stated that his club had 24 men signed now to play ball during next season, and that about seven others had offered to pay their own expenses without a salary, merely to make a mark. Surely base ball has become interesting, and apparently as necessary to a young man's start in life as an Oxford, Cambridge, Harvard or Yale.

The Tri-State League.

The Tri-State League will undoubtedly be a go this season. President Smith, of the Wheeling club, yesterday said that since Steubenville had subsided Fort Wayne and other clubs had come to the front. There are plenty of clubs to select from, but the question is which will be the best. It seems that Fort Wayne will be the most profitable. With Fort Wayne the Tri-State League will be: Wheeling, Canton, Mansfield, Dayton, Springfield, Lima, Findlay and Fort Wayne,

A STORY ABOUT SULLIVAN.

How He First Attracted the Attention of Barney Anron. Now that John L. Sullivan is considered al-

most hopelessly gone as a first-class pugilist, it will be interesting to tell how be first expressed the wish, among prominent sporting men, to fight Paddy Ryan. The story, or more correctly speaking, the fact of history, was told to the writer yesterday by a well-known local sporting man, who was a principal in the incident. The sporting man said:
"I first saw Sullivan at Erie when old Goss

sporting man said:

"If first saw Sullivan at Erie when old Goss and Ryan were to fight. I was engaged to second old Joe, and we were at the Reed House. Young Sullivan, with a tough's cap on and a little coat, was among the Eastern visitors, and he landed there on a pass. He hadn't a cent. When we were all talking about Ryan, Sullivan remarked to me: 'I wish it had been me that was going to fight the big fellow,' meaning Ryan. I said: Why what would you do with him? and he replied that Ryan was his game. I told Barney Aaron, and he had Sullivan stripped that night in a private room to inspect his build. I confess he was a magnificently built fellow, the picture of health and strength.

"Goss and Ryan fought and, as we all know, the latter won. Sullivan then got backing to night Ryan, and soon defeated him when they fought. But Sullivan then was as physically pure as any man who ever stepped into a ring. He was in that condition because he was poor. He won and got money and that was the commencement of his downfall. He became flabby because of his mode of living, and I'm certain that two or three years after he fought Ryan he couldn't possibly have fought a victorious finish fight against a really good man."

LIVELY WITH THE CUE.

Local Billiard Players Test Their Skill for Big Stakes.

There is some pretty lively billiard and pool playing going on in the city for considerable stakes. There is a good feature about it, however, viz., that it is being done in a modest and quiet way. Frank Kastlemyer and O. M. Hughes played a series of carom billiard matches yesterday morning, at least they played until anearly hour of the morning, and as a result Kastlemyer by stakes was \$600 loser.

The two contestants renewed the argument yesterday afternoon, and Hughes won five straight games. The afternoon games meant that Kastlemyer dropped \$250 more. Last evening it was understood that John Staley and "Big John" were having it out for \$500 a side on the table with the cue. It does seem that there is desire in the city to have an honest test of skill, and many consider it a pity that everybody cannot see the contests. There is some pretty lively billiard and pool

A BRUTAL BATTLE.

CHICAGO, March 12 .- A dispatch from Seatmiddleweight of the Pacific Coast, and James McCann, of Nanaimo, B. C., yesterday fough nine rounds for \$100 and the gate receipts. The nine rounds for \$100 and the gate receipts. The fight was awarded to Cleary, as McCann, who was being punished terribly, sllpped down to avoid further punishment. In the seventh round McCann went down eleven times. The fight was the most brutal ever seen on the coast, one of McCann's eyes being gouged out and the other so seriously injured that he may lose his sight entirely.

Fogurty's Bluff.

Ed. Swartwood, Jimmy Galvin, Al Pratt and all the experienced ball players laugh at Fogarty's statement that he and Wood are going to Australia. Swartwood laughingly "You bet Fogarty's a joker, and sometimes a "You get Fogarty's a joker, and sometimes a sly one at that."
Galvin says: "Fogarty hasn't signed with Philadelphia yet, and he thinks his bluff will be worth a few dollars. We've all been there before, my boy."

New Orleans, March 12.—The weather to-day was cloudy, but pleasant. The attendance day was cloudy, but pleasant. The attendance was large and the track was fast.

First race, one-half mile—Deboe won in 51%; Moonlight, second: Eclipse, Jr., third.

Second race, four and one-half furiongs—Cheeney won in 57%; Cora L., second; Orange Girl, third.

Third race, five-eighths of a mile—Macauley won in in 1:00; Regardiess, second; Electricity, third.

Fourth race, six and one-half furiongs—Event won in 1:24%; Silleck, second; Lida L., third.

A Fatal Prize Fight.

PEPECIAL TELEGRAM TO THE DISPATCH. COUR D' ALENE CITY, IDAHO, March 12. A prize fight occurred here this morning be tween Jerry Flower, champion of the Territory, and John Kendall, of Chicago. Four rounds were lought and Kendall was so badly injured that he lost consciousness and has since been in a comatose condition. He will probably die. Flower was arrested.

A Model Salary.

It may be interesting to the public, and that part of it that admires baseball particularly, to know that in an age of big salaries there is a man in the Tri-State League who has signed for \$1 per month. Here is a blessing to graded salary promoters and an example to those kickers who want 4,000 times more than the modest young man of Ohio.

A Steubenville Contest. Jess Clarke, of this city, and John Martlew, of Wellsville, O., have been matched to wrestle for \$100 a side, on Saturday night, at Vogel's Hall, Steubenville. A forfeit of \$15 a side is now up, and the balance of the stake is to be made good on Saturday. A number of local boxers will appear at the contest.

PHILADELPHIA, March 12.-Harry Lyons, of last season's champion St. Louis Browns, last night received from President Von der Ahe his unconditional release which he has been persistently endeavoring to obtain all winter. He has not as yet accepted any en-gagement for the coming season.

BRADDOCK, March 12.—S. M. Cooper, manager of the Braddock baseball club, has tendered his resignation on account of a press of duties at the steel works. Tommy Quinn will go to join Baltimore club on the 20th inst.

Bexing is Rooming There. William Nolan, the pedestrian, received a letter from his brother in Dublin yesterday. The letter states that boxing is all the rage in the Irish capital and that there are numerous contests every night. He says that the appearance of Sullivan at Dublin gave an impetus to the fistic encounters that has been sustained ever since. There is also a strong desire in Dublin to have six-day go-as-you-please race.

The Croydon Meeting. LONDON, March 12.-This was the first day of the Croydon March meeting. The race for the grand international hurdle race (handleap) of 500 sovereigns was won by Mr. W. Low's 4-year-old bay colt Alcacus.

Important Subjects. ISPECIAL TELEGRAM TO THE DISPATCH.1 Sr. Louis, March 12 .- Mr. Jay Gould was rounded up by a reporter to-day, and

this is what he said:

The railroad situation is worse than I've seen it in 30 years. Hostile legislation in Iowa alarmed railroads and killed railroad building. The stockholders in railroads ought to take a more active share in the management, then there would not be so many receivers, Railroads are in advance of the necessities of the country. Texas is the worst State in the Union for railroad earnings. Missouri seems to be the best State in the West just now. I don't believe in booms, because the reaction always leaves a vacuum. The Presidents' agreement has improved the railroad situation. The scheme adopted by the general managers here last week is feasible. I am in favor of the plan and the agreement. this is what he said:

Besides, we know nothing of the financial policy of the new administration. I am out of politics. Good day.

5, N. T. A. 135, K. of L., was here yesterday. He says the meetings held along the river in the interest of the Knights of Labor were successful. Fully 1,000 miners have joined. Most of the men who joined were old Knights who paid up their back dues.

Mr. Flannery, speaking of the reported success of the National Progressive Union in West Virginia in organizing miners, said the Knights of Labor were doing equally good work. "West Virginia," he said, "never was well organized, but almost all the miners are coming into one of the two organizations. If the two associations will work in harmony, the price of mining will be advanced, and this may benefit the Monongahela miners."

REMAINING AS KNIGHTS.

The Knights of Labor Iron Molders Will

Not Leave Their Order. L. A. 1030, K. of L., composed of machinery molders, held a regular meeting last evening and transacted routine business. The report that they were about to leave the Knights and join the Molders' Union of the Knights and join the Molders' Union of America in a movement to form a strong organization was discussed. It was pronounced ridiculous, and all the members announced their intention of remaining with the Knights. At the close of the meeting Master Workman Ross, of D. A. 3, who is also Master Workman of L. A. 1630, said: "The local has no intention of amalgamating with Local Unions Nos. 14 and 46, and you can state positively that we are on top. If the trades unionists want to give up their organization and join the Knights they can do so."

involved. The first war with Great Britain was for principle and it gave us our independence and national existence. The War of 1812 was for principle, and gave us our maritime independence. The war with Mexico was for a principle, and gave us the subjugated possessions of our whole Pacific coast. The war for the Union was for principle, and resulted in the restoration of the authority of the Constitution and gave us a people North and South animated by a military spirit which will be equal to every possible requirement. BISMARCK'S IDEA.

I have carefully investigated the stories about the Nipsic. It looks as if they were put out at the instigation of Bismarck to test the sentiment of his own and our people. He has never been a friend of the United States. He will find out very promptly the temper of the will find out very promptly the temper of the American people.

Of course we are weak at present on the ocean, but there is a plan which will meet the emergency and will badly cripple Germany while we are getting ready. No one supposes that the American people would give up the contest until Germany had received a sound drubbing. We have surplus and revenue enough, with taxes now at a minimum point, to carry on desultory war until we are in fighting trim.

to carry on desultory war until we are in figuring trim.

While we are getting ready we can prohibit the entry of German manufactures in the United States. That is an important item in the monetary activity of Germany. We send many millions there to pay for goods. If, for the time being, Germany should try to blockade our ports, in less than 80 days we would find an English fleet on our coasts Involved in protecting her own trade with the United States.

HELP PLENTY. A hundred millions and more of British goods find a market in the United States and could not be cut off without ruining British in-dustries. France would also have an interest. dustries. France would also have an interest. Meanwhile we could get along without their goods if necessary. So that England and France would be forced, as a measure of industrial self-defense, to protect their vessels and their trade with the United States.

As the country knows, I have been urging in letters and reports the importance of building up a powerful navy. We have the wealth and resources to lead the world in a navy. But taking matters as they are, the Government should go to England and France, both countries being ahead of Germany in modern naval vessels and guns, and buy all the rified guns and bring them here. We will very soon make use for them.

Here is a list of the entire strength of the German navy. It is more than we have, but we have the money and could easily spend \$250,000,000 in ships and appliances of war. There is League Island, at Philadelphia, the grandest place on the continent for a great navy yard.

WE CAN BUILD ONE;

WE CAN BUILD ONE.

right there. It is inaccessible to a foreign fleet. The channel of the river could be lined with torpedoes, if necessary, or they might be operated from the shore. Ships could be built operated from the shore. Ships could be built there with all the materials near at hand. Of course this would take time.

In the meantime we would be compelled to resort to other modes of offensive war. With \$50,000,000 in 80 days I could put an improvised fleet in motion which would make short work with German commerce. There are 600 German steamers afloat. I know where they are. We have fleet ships; I could pick them out now. We could buy more, They would answer for privateers.

We have fleet snips; I could his them out now. We could buy more. They would answer for privateers.

About the time we would have this part of the work disposed of, German industries affected by foreign trade would be paralyzed, while we would be at the height of prosperity. We are always prosperous in time of war. We would then be getting ready to begin fighting. It might be possible that Germany would seize Samoa for the time being. The European aspect of the question would present another complication.

Mr. Stauffer wanted the Normal School building on Miller street sold and a wing to the High School creeted for the normal department. He said the latter was nothing but a great expense, as every person admits that it is not in the proper location. Mr. Buckley also wanted the Normal School attached to the High School building, as it would save the expense of one principal and one janitor. The motion was defeated.

Mr. Diehl, of the High School Visiting Committee, created somewhat of a sensation by saying that the school is in a very dirty condition. The windows look as if they had not been cleaned since last summer, and dirt pervaded every corner in the building.

Dr. S. N. Benham was elected Chairman of the High School Committee.

Several hundred agents will attend. James L. Taylor, General Passenger Agent of the Richmond and Danville road at Washington, is President, and A. J. The meeting will probably conclude with an excursion to some point of interest, on one of the roads running out of New York.

A COLUMBUS CLUB HOUSE.

Annual Meeting.

An election of officers was held last night by the Columbus Club at their rooms, Smith field street. The officers elected were as follows:

The Treasurer's report for the past year showed a good condition of the club's fluances. The question of purchasing a lot and erecting a new club house was discussed, and a committee was appointed to investigate and prepare a report, to be presented at the next meeting of the directors. Samoan affairs continue to be a leading topic at Washington. A message has been sent to San Francisco asking when the Charleston can be got ready for service. Admiral Porter strongly condemns the position of Germany and Bismarck. He would fight for a pin on principle, and outlines a plan by which America could make a successful struggle against Germany.

Washington, March 12.—The state of affairs in Samoa, and the probable outcome of the trouble, continues to be a topic of great interest, especially ir. naval circles. A telegram was sent to-day to San Francisco from the Navy Department, asking at what fate the cruiser Charleston will be ready for trial. The present information is that she will be ready April 1. Admiral Porter, who has made a careful study of the situation, expresses himself as follows:

A pin is worth fighting for if a principle is involved. The first war with Great Britain was for principle, and gave us our maritime was for principle, and gave us our independence. The war with Mexico was for miled out when he realized the trops for the troub the was going to flarmony to see some friends whose names were mentioned. The some his works and said he was on his way to Harmony but did not intend to go until the next day as his baggase was not ready. He thought, however, that the could get company he might arrange his affairs and go on the same train with Mr. Liebrum. The latter said he would be delighted to have company on the trip and asked the stranger to try and fix things so that he could go on the next train. The man left, and returned in a short time. During his absence he had evidently seen an accomplice and "fixed things" for he saked the McKeesport farmer to accompany him for a short walk to the Adams Express Company where he would pay the freight on his goods and have them shipped.

The farmer agreed, and they left the depot. Before the pair had proceeded very far, Mr. Liebrum was stopped by his som paniones, who responded to a call of "Hello. Scott." When the said, "Mf. Scott, you need not

PRETTY RAILWAYS ON PAPER.

But They Don't Pan Out When a Fellow Hunts for Projectors. The telegraphic story published in yesterday morning's papers, that. Mr. Andrew Carnegie and some New York capitalists had purchased the Ohio Valley railway or had purchased the Ohio Valley railway or a majority of its stock, and, by the aid of the P., C. & Y., the C., Y. & P. and the N. Y., P. & O. railways, would have a through Pitaburg and Cleveland line, and parallel with the P., F. W. & C. railway, connect Carnegie's steel mill with the ore decks on Lake Eric, etc., occasioned some talk in the city yesterday. It seems to have been a good story, only it wasn't true.

casioned some talk in the city yesterday. It seems to have been a good story, only it wasn't true.

John G, MacConnell, Esq., said of the canard: "You can say that it is a story cut out of the whole cloth. If the Pittsburg, Chartiers and Youghiogheny Rallway had been secured I would know something about it, and I would be wanting to get in on the ground floor, too. I know that Mr. Carnegie has not done anything of the kind. You may feel sure that I know what I am talking about."

Others who are supposed to know (some people connected with Mr. Carnegie in business, and Pennsylvania Railroad officials also) stated that Mr. Carnegie was not in the alleged deal. It is said that he does hold a controlling interest in the stock and bonds of the Valley Railway, but was forced some time ago to secure control on account of his inability to otherwise secure his claim for rails furnished the road. Some people, however, say they believe the report that the Chartiers and Yloghiogheny Railway will be exteuded from Mansfield to Braddock, 15 miles, which will secure a direct line from the lake to the Braddock Steel Works. It is also said there is a probability of a road being built from Braddock to Port Perry, and thence up Sewickley creek to the coke fields, almost on the survey of the South Penn. If accomplished, the extension of the Pittsburg, Chartiers and Yloghiogheny will be of much benefit to the Chartier coal operators.

Thus, while the story published may not be Chartier coal operators.

Thus, while the story published may not be strictly true, many people think some beneficial enterprise, and a rather extensive one, is either hatched or m process.

Quorum Last Evening.

A special meeting of Allegheny Select Council was called for last night to consider the appropriation ordinance and a number of very important measures. The regular meeting of both branches, the last of the fiscal year, will be held to-morrow night, and it was intended to dispose of as much business as possible in order to be able to clear the desks at the last, meeting of the year.

All business that is not disposed of before April I will be dead and in order to be passed must be regularly introduced again. A quorum April I will be dead and in order to be passed must be regularly introduced again. A quorum was not obtained, there being only 13 members present, lacking one of the necessary number. These members were principally those that "hold over" and elected members.

Some of those who were defeated, and whose terms do not expire until the end of the month, did not put in an appearance.

Unless one or two special meetings are held within the next two weeks, a great deal of inconvenience will be caused.

I have used your CUTICURA REMEDIES is two cases where it proved to be successful. The first was in the case of a boy a year and a half old. His face and body were in a terrible condition, the former being completely covered with sores. I took him to the Massena Sulphur Springs, but he did not improve any. I was then advised to try the CUTICURA REM. RDIES, which I aid. He took one and one-half bottles of CUTICURA RESOLVENT, when his skin was as smooth as could be, and is to-day. I used the CUTICURA on his sores and the CUTICURA SOAP in washing him. He is now 5 years of age, and all right. The other now 5 years of age, and all right. The other case was a disease of the scalp, which was cured by washing with the CUTICURA SOAP and rabbing in the CUTICURA, one bottle of CUTICURA RESOLVENT being used. They have proved successful in every case where I have advised the use of them. It is surprising how rapidly a child will improve under their treatment. I recommend them for any disease of the skin as being the best in the world. This is my surprising and I am ready to stand by my my experience, and I am ready to stand by my statement.

Small, red blotches, with dry, white scab, from head to feet. Two physicians fail,

Cured by Cuticura. My boy, aged 9 years, has been troubled all his life with a very bad humor, which appeared all over his body in small red blotches, with a dry white scab on them. Last year he was worse than ever, being covered with scale from the top of his head to his feet, and continually growing worse, although he had been leated by two physicians. As a last resort, I determined to try the Cutiquan Remedies, and am happy to say they did all that I could wish. Using them according to directions, the humor rapidly disappeared, leaving the skin fair and smooth, and performing a thorough cure. The CUTICURA REMEDIES are all you claim for them. They are worth their weight in gold to anyone troubled as my boy was. GEORGE F. LEAVITT,

I can praise the CUTICURA REMEDIES very highly, for they have cured my baby of a very bad case of eczema, and my boy of sore eyes and breaking out on his face.
